

# JOEL OMWENGA MOGENDI

Full-Stack Software Engineer | Nairobi, Kenya  
joelmogendi1@gmail.com | 0741656078 | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Driven Full-Stack Software Engineer specializing in the MERN stack (MongoDB, Express.js, React, Node.js), Next.js, and TypeScript. Experienced in designing, developing, and deploying robust web applications, ranging from secure investment platforms to interactive digital marketplaces. Adept at system architecture, REST API integration, and creating seamless, responsive user experiences with a solid operational foundation in Linux (Ubuntu) environments and agile workflows.

## TECHNICAL SKILLS

**Frontend:** React, Next.js, Tailwind CSS, HTML5, JavaScript (ES6+), TypeScript

**Backend:** Node.js, Express.js, Python, RESTful APIs

**Databases:** MongoDB (Atlas & Compass), Mongoose ODM

**Tools & Methodologies:** Linux (Ubuntu), Git/GitHub, pnpm, System Design (DFD, UML), API Security, Webhooks, Agile/Scrum

## PROJECTS & EXPERIENCE

### Telemedicine Full-Stack System — *Flagship Project*

- Developed a comprehensive telemedicine platform featuring secure, role-based access for doctors, patients, and administrators.
- Designed the backend architecture to handle user data securely and efficiently while optimizing API endpoints.

### SkillSpotter — *Web-Based Marketplace*

- Engineered a full-stack platform enabling manual laborers to showcase portfolios, service capabilities, and coverage areas.
- Successfully migrated the frontend architecture from vanilla HTML to React and Tailwind CSS to significantly improve maintainability and UI responsiveness.
- Created extensive technical project documentation, including detailed Data Flow Diagrams (DFDs) and UML models to map system architecture.

### AssetBridge — *Investment Platform*

- Built an investment marketplace featuring secure bank transfer integrations and administrative verification flows.
- Implemented strict webhook security and designed robust Mongoose schemas for optimal, high-performance database management.

### Mogz — *Personal Engineering Portfolio*

- Architected a high-performance personal portfolio website using Next.js and TypeScript to demonstrate modern frontend architecture.

- Configured optimized custom layouts and file-based routing mechanisms to maximize SEO performance and ensure instantaneous page loading.

### **Evanson Tents and Chairs** — *Business Web Portal*

- Developed a dedicated business web portal for a commercial rental business in Kisii to streamline booking inquiries and services.
- Managed digital presence, customer review pipelines, and online engagement strategies via the brand's Google Business Profile to improve local discoverability.

## **EDUCATION & FELLOWSHIPS**

---

### **University of Embu**

#### **Bachelor of Science in Computer Science** (Ongoing)

- Core coursework in Data Structures, Algorithms, Database Management Systems, and Software Engineering principles.

#### **Power Learn Project (PLP)**

- **Full-Stack Web Developer Certificate:** Graduated from the intensive software development track.
- **Mobile Development Specialization:** Ongoing studies focusing on building responsive and robust mobile applications.

## **LEADERSHIP & EXTRACURRICULARS**

---

- **Rotaract Club:** Active Inducted Member contributing to community service sub-committees and leadership development.
- **Digital Campaign Management:** Developed comprehensive manifestos, promotional posters, and digital communication strategies for a successful departmental delegate election campaign.
- **Business Management:** Co-managed a collaborative bike-for-hire business venture, supervising shared asset ownership structures and systematic revenue division before successfully exiting the venture.
